Compuser

An AI agent with its own computer.

Compuser runs a full desktop in the cloud. You give it one instruction, and it works through the sites like a person would, keeping its files and logins for the next job.

THE DEMO TASK

"Find the cheapest earphones, copy the details, and list them on my Shopify store."

It searched, read the product page, logged in to Shopify and published the listing.

HexaFlow

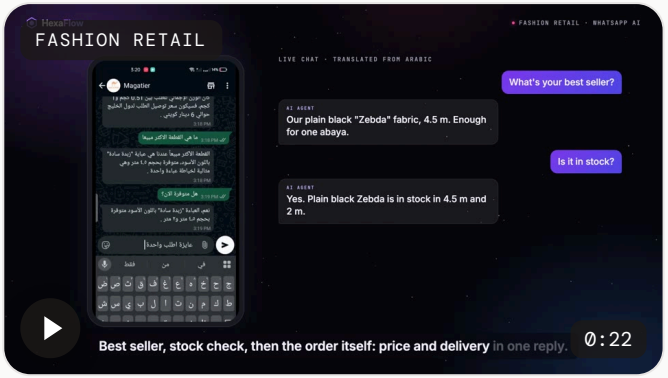

AI agents built for companies.

Five AI agents HexaFlow built. I made each demo from the raw screen recording: cut down, animated and voiced in English with ElevenLabs.

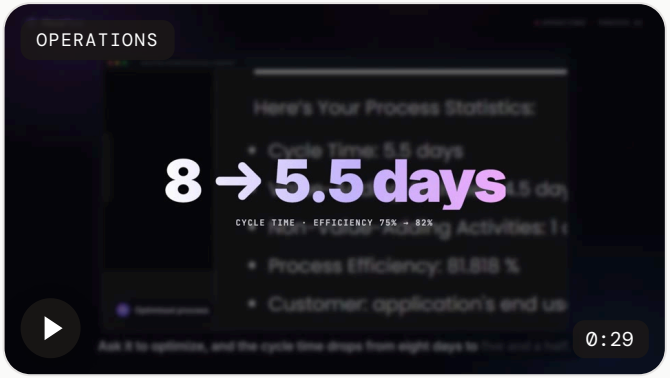

AI Voice Agent

Calls every lead in Arabic or English, handles pushback and books the meeting.

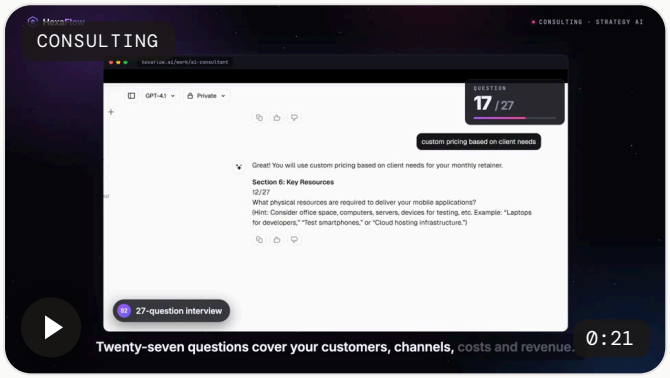

WhatsApp Sales Agent

Quotes shipping, checks stock and takes orders in Arabic.

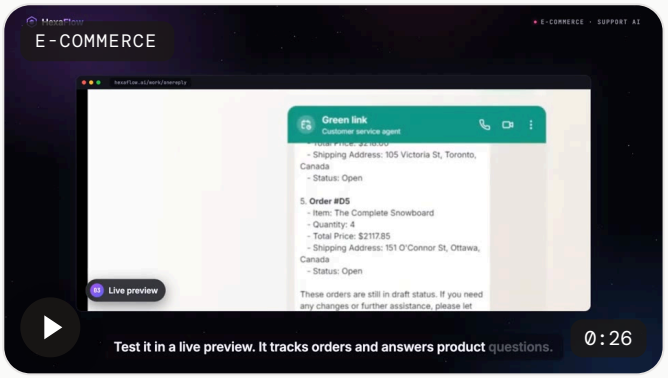

AI Process Engineer

Maps a process from a chat, then redesigns it.

AI Strategy Consultant

A 27-question interview that ends in a full business model canvas.

OneReply.ai

Turns a Shopify store into a WhatsApp support agent.

HOW THESE VIDEOS WERE MADE

Raw recording in, finished video out. The voice-over, motion graphics and edit were all made with AI.
